Year : 10	Course : Hard Materials	Mr Ram	Total Credits :
-----------	-------------------------	--------	-----------------

This course introduces students to explore the fundamental techniques of woodworking skills to create objects from wood, including furniture making, joinery, and wood carving. Students will engage into learning how to use hand tools, power tools safely and effectively, create practical projects like stools, boxes, or simple furniture to apply skills, understand different types of wood and their properties, learn to read plans and create simple designs, mastering techniques for joining wood pieces together and learning about wood finishing techniques like sanding, staining, and sealing. This course integrates practical skills with theoretical knowledge, fostering a holistic understanding of woodworking.

No	Number	Version	Level	Credits	Lit / Num	Full Title	Assessment Details	Grade	Teacher Signature
1	MWOOD03					Technological Modelling - create a model to test an idea	Practical		
2	MWOOD01					Technological Practice - plan, construct & evaluate a wood product			

School Assessment Procedures - You can view your rights and obligations under the school's assessment procedures on the schools intranet.

Qualifications - You can see what qualifications the school offers and what qualification(s) this course leads towards on the schools Intranet. Also you can see the courses, pathways, requirements for certificate endorsement, exclusion list of standards, and details on credit inclusion.

NZQA - For a range of information on the National Certificate of Educational Achievement, University Entrance, and Scholarship go to <http://www.nzqa.govt.nz/ncea/index.html>

Assessment Opportunities Offered - In addition to what is listed above, other authentic standard specific evidence may be used instead of a formal assessment event. See your teacher for details.

Record your internal grades on this sheet and ask your teacher to sign it off as correct. You can then use this as evidence of your achievement.
